

NARVIK2020

FIS ALPINE JUNIOR WORLD
SKI CHAMPIONSHIPS

**TEAM
GUIDE**

Finally the time has come for Narvik and Narvikfjellet to be filled with alpinists, managers, drivers, service personnel, parents, and others from all over the world.

The last big international races in Narvik were in 1992 and 1996, when we held the World Cup women's race. We have great ambitions for future events, and the goal is to be able to apply for the World Championships in alpine skiing in 2027. In order to achieve this dream, we have to deliver at all levels for all the runs on the mountain - from children's races to now, the FIS Alpine Junior World Ski Championships 2020.

We have worked long and hard to provide the best runs, the best food, the best ceremonies, and the best logistics for each and every one of you during the championships. Many of the competitors here are attempting to become World Cup skiers, and, for most of them, these

races in Narvik are the most important races in their careers so far. We know that some of the competitors will become world stars in a few years time.

However, everyone is equally important to us, and our goal is for everyone to remember this championship in Narvik as a great experience.

We hope that everyone has a wonderful and memorable stay in Narvik, and that the conditions are the same for all competitors.

With sporting greetings

Erik D. Plener
CEO, Narvik Alpin AS

On behalf of Narvik and Northern Norway I welcome you all to the FIS Alpine Junior World Ski Championships 2020

Narvik has a long tradition in organising alpine competitions for all age groups locally, regionally, nationally and internationally. We have strong alpine traditions and a tremendous community spirit in Narvik and Northern Norway.

Narvik and Northern Norway intend to develop into an arctic organiser of international alpine competitions and championships.

Narvik is the venue which is supported by all of Northern Norway's sport and business communities as well as the local governments. Our spectacular nature with steep mountains,

beautiful fjords and lakes has immense value for us. This is our provider of sustenance and is the foundation for sustainable business and tourism.

We wish to give our guests a taste of North Norwegian hospitality, to experience its distinctive nature with sport experiences organised for everyone.

Welcome to Narvik and Northern Norway.

Rune Edvardsen
Mayor of Narvik

ANTI-DOPING CONTROL

According to the FIS rules for the World Cup Finals, anti-doping tests (blood and urine sampling) will be conducted. The athletes that will be tested will be under complete surveillance of the Anti-Doping personnel from the moment they are chosen until the tests are done.

The Doping Controls will take place at the Thon Hotel close to the finish area. All tests (blood and urine sampling) will be sent to declared laboratory.

CORONAVIRUS

Important information regarding novel coronavirus (COVID-19) to athletes and other participants and visitors to the FIS Alpine Junior World Ski Championship – Narvik 2020.

The outbreak of novel coronavirus (COVID-19) in many parts of the world makes it necessary to raise the awareness of the virus and the possibility of developing symptoms and spread of the virus during the JWSC in Narvik. As of 28th February 2020 only 4 cases of COVID-19 disease has been reported in Norway, all related to travelling from affected areas. So far, no ongoing transmission has been reported within Norway.

THERE ARE MEASURES YOU CAN DO TO HELP STOP VIRUSES LIKE CORONAVIRUS SPREADING:

- wash your hands with soap and water often
 - use hand sanitiser gel if soap and water are not available
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately

Face masks play an important role in places like hospitals, but there is very little evidence of benefit for members of the public.

If you have been in areas of ongoing virus transmission (named countries) and during your stay in Narvik should develop flu-like symptoms including fever, cough, or difficulty breathing you should:

- immediately contact medical team personnel and Race Doctor on phone +47 909 49 663
- stay in your room at your accommodation site and avoid contact with other people until medical personnel has been consulted.
